

Codácer Industrias S.R.L.

N.G.V. Compressors and Dispensers

Excelencia en productos y sistemas para la industria del GNV

PROPULSION 3 STAGES ASSEMBLY

TECHNICAL FEATURES

- Measures: 1920 x 675 x 410 mm.
- Weigth: 800 kg.
- Opposite horizontal Cylinders, quantity 4", diameter: 3" ; 1-3/4";
- Low vibration level.
- Perfect balancing.
- Dry Pistons, self lubricated rings.
- Inlet Pressure: 12 to 18 bars.
- Charge Pressure: 250 bars.
- Cooling by torced air. No water required neither additional structures.
- 8 liters of common oil in the crankcase.
- Robust and simple mechanic.
- Maximum efficiency and performance (1.200 m3/Hora).
- Revolution regime: 600 to 1100 r.p.m.
- Minimum current drain. (0,15 kWh / m3 compressed).
- Low installation costs.
- Low maintenance costs.
